

# Top 7 Reasons to Choose IELTS

You may be aware that IELTS (International English Language Testing System) is the most widely used English language competence test, but do you know why candidates from all over the world favour it? There are several significant reasons why passing this test can lead to extraordinary outcomes, not just one. Here are our top seven justifications for selecting IELTS as your English language test while planning to relocate overseas.

## **1. IELTS for study, work, and immigration**

Yes, that is accurate. IELTS examinations come in a variety of formats that can be customised to meet your needs.

- IELTS Academic is made to assist those who wish to relocate to an English-speaking nation to pursue undergraduate (or higher) studies or to pursue a professional career such as a doctor, lawyer, etc.
- IELTS General Training is designed for individuals who desire to apply for further education, find employment abroad, or immigrate to other nations such as Canada, Australia, New Zealand, and the UK.
- A unique test called IELTS UKVI is intended for those who want to move to the UK.

## **2. Recognised and accepted worldwide**

IELTS test results are recognised worldwide! The fact that IELTS is accepted by more than 10,000 organisations worldwide makes it the most sought-after English language competence test. Additionally, IELTS scores are accepted by over 3,400 institutions in the United States alone and in 140 other countries. It is understandable why more than 400,000 applicants took the IELTS last year.

## **3. More choice in test types**

You can now book your exam for either the paper-based IELTS or the computer-based IELTS. The only decision you have to make is which medium best suits your comfort level, even though the test's structure, subject matter, and degree of difficulty are all identical. IELTS on a computer is free, but it gives a larger range of test dates: up to 3 times every day, seven days a week.

#### **4. Faster results**

IELTS also provides quick results, with paper-based IELTS results coming in just 13 days and computer-based IELTS results coming in only 3-5 days.

#### **5. Accuracy**

The IELTS test is meticulously created, produced, and validated by language experts from Australia, the USA, the UK, Canada, and New Zealand. The test's ability to give a fair, accurate, and trustworthy evaluation of English language proficiency can be relied upon.

#### **6. Expert support and free resources**

Any IELTS question you have can be answered by IDP specialists. IDP has a tonne of free tools available to aid with your test preparation. In reality, IELTS specialists also offer free, official masterclasses that are well-known among applicants for their strategies.

#### **7. Governed by trusted bodies**

IDP, Cambridge Assessment English, and the British Council all share ownership of IELTS. All three organisations may be trusted to deliver academic achievement and cross-cultural understanding.

### **IELTS – a test that opens doors to opportunities**

The International English Language Testing System (IELTS) tests are proudly co-owned by IDP. With more than 3.5 million tests completed in the last year, it is the most well-known high-stakes English language competency test in the world for study, work, and immigration. More than 10,000 organisations, including educational institutions, employers, professional associations, and governments, in 140 nations throughout the world accept the IELTS results.
